

Braybrooke Neighbourhood Watch Report 2017/18

The aim of Braybrooke Neighbourhood Watch is to contribute to providing a safer environment for the village community by passing on information about crime and safety issues from members of the village, the police and the Northamptonshire NHW organisation. Communication is by email (or telephone where appropriate) and Braybrooke Gossip.

It is also hoped that awareness is raised of issues which may affect villagers who may be more vulnerable.

Any community, regardless of size, can experience crime and in the last year there have been a small number of incidents in the village.

Please note that as Braybrooke is on the border of Northamptonshire and Leicestershire not all relevant incidents are reported to our village NHW which is only linked to Northamptonshire Police.

If villagers do see something suspicious please telephone 999 in an emergency or 101 and also inform the NHW co-ordinator so that other residents can be made aware of incidents and issues of concern.

I would welcome any recommendations on improvements to the village NHW scheme and communication.

New residents are encouraged to join the scheme. Please contact me to be added to the NHW register.
