

Report for the Village Hall

- The Hall continues to be well used and supported.
- Ongoing improvements to the Hall are as follows:-
- Following an attempted break in we have installed an external CCTV system.
- The external door to the storeroom that houses equipment for the Village Fete has been reversed and brought back into action so the store can be accessed from outside without having to go through the kitchen and hall.
- A loft ladder has been installed in the kitchen ceiling enabling us to access the room above. The PCC have taken advantage of this to store their archives.
- The most exciting thing to report is that in the very near future the Hall will become host to a most vital asset for the village, of which the chairman of the PC will address within his report.
